

PRODUCT OVERVIEW

Aluminum Profile "P8" creates an evenly diffused 3" wide line of high-output linear lighting. It can either be suspended from the ceiling (using the provided suspension hardware) or surface mounted for an impressive architectural lighting solution. It has an interior width of 2.81" (71.4mm) wide which can be used to install 2 rows of high-output LED strip lights. This large aluminum extrusion has the capacity to dissipate the heat generated by your high-output LED strip lighting thereby extending their lifetime. Aluminum Profile "P8" is conveniently sold in 8ft lengths as a completed kit including a pair of endcaps, suspension kit, and one premium frosted diffuser (lens). The high-output capacity makes this LED channel suited for both decorative lighting applications as well as general lighting needs for commercial spaces.

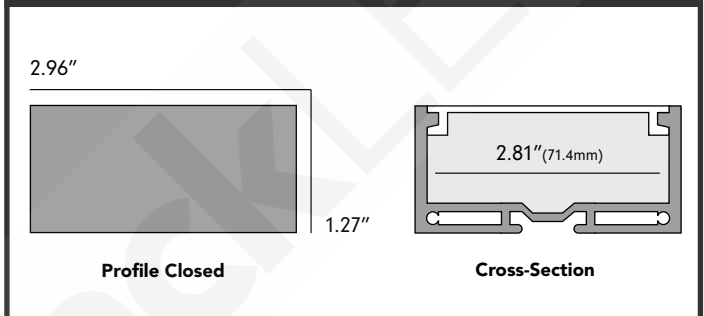

Features

- 3" Wide Design creates dramatic linear lighting scenes
- Maximizes Lifetime of LED strips by dissipating heat.
- Suitable for General Lighting! (Use in offices, hotels, restaurants, and more!).
- Fast and Easy Installation using suspension kit, or screwing into surface.
